Subject: All your efforts greatly appreciated

Dear Ananth, Sivakumar, Kingson and the rest of the crew

I just want to thank you all for pulling my shipment together from NewYork to Bangalore. My ground work and research on your company did pay off and I could spot someone who is reliable and safe.

The person who helped me at Customs clearance was awesome and he did a great job.

Though I had to wait for 15 more days than the promised days of 45, it was worth waiting and all items came really good without any damage.

I recommend WorldWide4Shipping company for everyone to utilize the excellent/professional service.

Thanks a lot everyone for doing such a neat and thorough job...You guys are simply great..

With best Regards
